

How to Access Your Digital Materials through IvyLearn

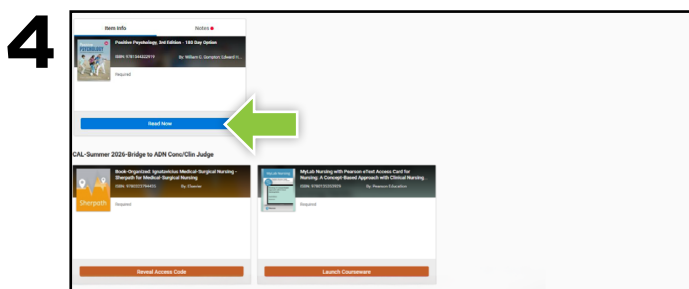

Sign in to **IvyLearn**.

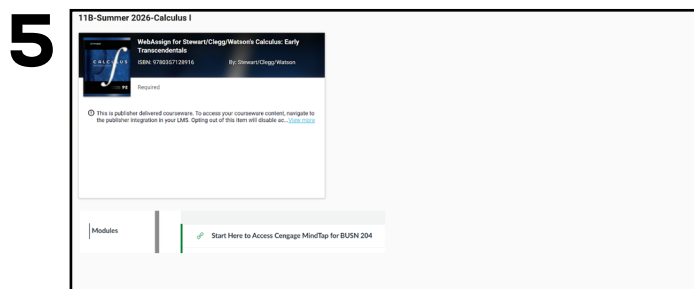

Find your course and select to view.

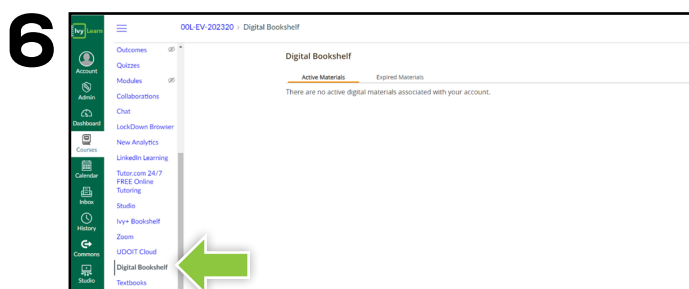

From the homepage, select the **Textbooks** link to view your textbooks.

eBooks will have a **Read Now** button. Certain courseware publishers will have either a **Reveal Access Code** or **Launch Courseware** button. If these buttons aren't available, access your courseware through the **Modules** or **Assignments** section in IvyLearn.

Publisher-delivered courseware will display the message "This is publisher delivered courseware" in the Textbooks link. To access your course materials, use the links in the **Modules** or **Assignments** section of your IvyLearn course. Link locations may vary by course and material.

Some digital materials may be accessed via the **Digital Bookshelf** link. If you do not see the Digital Bookshelf link in your course and need to retrieve your access code, please refer to the "[How to Access Your Digital Materials through the Digital Bookshelf](#)" flyer.
